

## Frozen Strawberry Daiquiri

Scotten W. Jones – [scotten@scottenjones.com](mailto:scotten@scottenjones.com)

I got a Margaritaville frozen drink maker for Christmas one year and went to work perfecting frozen drink recipes.

This is a recipe without alcohol but you can certainly add it if you want.

### Ingredients

Ingredient	Qty	Units
Fresh Squeezed Line Juice	1	Oz.
Fresh Strawberries – chopped in a blende	4	Oz.
Shaved Ice	1	Cup
Sugar	3	Tbs
Water	2	Oz.

### Directions

Take fresh strawberries, cut off the tops and chopped up in a blender.

Squeeze limes for the fresh lime juice.

Mix 1 once fresh lime juice, 4 ounces of chopped strawberries, 1 cup of shaved ice, 3 Tbs of sugar and 2 ounce of water in a blender and blend well.

I use a Margaritaville Margarita maker. I puree the strawberries in a blender first, then I mix all the ingredients except the shaved ice in the Margaritaville drink pitcher and the machine shaves the ice and adds it automatically.
